

Hello. I would just like to say that I used to receive many telemarketing calls a day. Even if I tried to tell them that I do not want what they are offering, they keep calling, and keep pushing. Since I have signed up on the Do Not Call list, I receive almost no telemarketing calls, and I love it. I work the midnight shift here on my base, so it is especially annoying when they call all during the day and disturb my sleep. I hope the New Jersey Do Not Call List stays in full effect FOREVER! Thank You!
